TM-FLOW

Autonomic Nervous System

What isn't measured can't be managed. That's why it's important to evaluate your Autonomic Nervous System (ANS) with the **TM-Flow** at **RHBNeuro** when suffering from **numbness, weakness, twitching** or **tingling** in your arms and legs.

MAIN SYMPTOMS OF AUTONOMIC NEUROPATHY

- Tingling in Toes of Fingers
- Headache
- Dizziness
- Fatigue
- Exercise Intolerance
- Muscle Cramping
- Climbing Stairs
- Fainting

Based off your results, you may be eligible for our [STROKE PREVENTION PROGRAM](#) that includes a cloud connected scale or BP monitor and a dedicated registered nurse to guide your behaviors to the best you!

Call us at (972) 423-0977 extension 414 to learn more.
